Time: 07.15 – 08.15

Cost: Free – Register

Location: Bayer Stand – Trade Exhibition Hall

Presenters: Dr. Meredith Frearson and Dr. Kath Whitton

Dr. Meredith Frearson

Specialist women's health general practitioner who has been involved in training in sexual health for over 20 years. Awarded a Churchill Fellowship in 2019, she travelled to Stockholm, the United Kingdom and Los Angeles with the aim of optimising the use of IUDs to improve Australian women's sexual and reproductive healthcare.

Dr. Katherine Whitton

A fellow of RANZCOG and working from North Shore Private Hospital in Sydney, NSW. Also an Adjunct Lecturer at The University of Notre Dame and University of NSW, and teaches at the University of Sydney Northern Clinical School to keep up to date and abreast of the most recent research and evidence. Dedicated to providing the best in women's healthcare across all life stages.

After 20+ years of Mirena® (levonorgestrel) in Australia and 2 years since launch for Kyleena® (levonorgestrel), what has been the Australian experience? Has Kyleena® found its place in expanding LARC use in the nulliparous woman?

Real-world evidence from KYSS (the Kyleena® Satisfaction Study) in support.

With the opportunity to experience the haptic, high-fidelity Pelvic SIM, offering procedural practice in the training setting, with case scenarios that provide real-time feedback on device placement and patient comfort.

PBS Information: Kyleena: Restricted Benefit. Contraception. Mirena: Restricted Benefit. Contraception. Idiopathic menorrhagia where oral therapies are ineffective or contraindicated.

Please review the full Product Information before prescribing. Full PI is available on request from Bayer Australia Ltd, or can be accessed via QR code:
