Low dose oral misoprostol now recommended by RANZCOG* as an appropriate method of induction†

*Therapeutic Goods Administration.
#Royal Australian and New Zealand College of Obstetricians and Gynaecologists.

Minimum Product Information: ANGUSTA® (misoprostol)

INDICATION: induction of labour. CONTRAINDICATIONS: when labour has started, suspicion or evidence of foetal compromise prior to induction, when oxytocic drugs and/or other labour induction agents are being given, placenta praevia or unexplained vaginal bleeding after 24 weeks gestation with this pregnancy, foetal abnormalities (e.g. bicornuate uterus) preventing vaginal delivery, pre-eclampsia, gestation < 37 weeks, membrane rupture > 48 hours prior, multiparity. Use in pregnancy: Pregnancy Category X. Use in lactation: breast-feeding can start immediately after birth. Use in hepatic and renal impairment: lower dose and/or prolonged dosing intervals should be considered. Paediatric use: no studies in women <18 years. INTERACTIONS WITH OTHER MEDICINES: No interaction studies. ADVERSE EFFECTS: Nausea, vomiting, diarrhoea, meconium stain, postpartum haemorrhage, uterine hyperstimulation / foetal heart rate abnormal, chills, pyrexia, low apgar score. DOSAGE AND ADMINISTRATION: oral, 25 micrograms 2 hourly, or 50 micrograms 4 hourly. Maximum dose is 200 micrograms over 24 hours. PRESENTATION AND STORAGE CONDITIONS: White, uncoated oval shaped tablet, 7.5 x 4.5 mm, score line one side, plain other side. Score line not for breaking tablet. Packs of 8. Store Below 25 °C.

PBS Information: This product is not listed on the PBS.

The great Ruth Bader Ginsburg said, “fight for the things you care about, but do it in a way that will lead others to join you”. As we contemplate what the world looks like for those we care for in 2023, this statement remains poignant. The health and wellbeing of those in our profession and of our patients remains fraught with disparities that challenge us. The delivery of excellent clinical care cannot be considered a silo and is critically dependent on addressing issues in the gender divide, individual rights and responsibilities, and equitable access to opportunities. We must fight for fairness in these issues and accept that 2023 is not a time to rest on our laurels, but instead to address the myriad of equity issues that underpin health outcomes.

This year’s theme “Aiming Higher: More than Healthcare” is a call to action for all of us. We must achieve the best health and non-health outcomes for our patients, while providing high quality, cutting edge, evidence-based care, that at the same time addresses the equity issues our patients face. Seems straightforward enough! We have charged our slew of national and international speakers to bring us the latest updates in obstetrics and gynaecology while also challenging us to aim higher and seek the outcomes for our patients that befits the year 2023.

We are excited to bring you plenary sessions on abortion, conflict, and equity with an impressive field of internationally renowned speakers. Concurrent sessions will cover all aspects of obstetrics and gynaecology from labour ward to sub-speciality topics, simulation and training, global health, First Nations health, and the mental health of our profession.

Excellent, evidence-based updates aside, the ASM is going to be a glorious time to visit Perth. The city sees an average of 300 hours of sunshine in October, rainfall is rare, and the average temperature sits in the balmy mid 20’s. Take an extra day or two on the West Coast and enjoy a run in Kings Park, a selfie with a Quokka on Rottnest Island, or a drive through the southwest winery region.

Jennifer Pontré and Emma Allanson

We’re looking forward to seeing everyone in Borloo (Perth)!
Keynote Speaker

Bruce Bekkar

Bruce Bekkar, M.D. is a women’s health physician, author, and educator who has been engaged with the climate crisis since 2007.

He currently serves on the Editorial Board of the Journal of Climate Change and Health and as a Fellow and member of the Leadership Circle Executive Committee at ecoAmerica in Washington, DC. At home in Southern California, he is Chair Emeritus of the Public Health Advisory Council and a public health consultant for the County of San Diego Regional Decarbonization Framework.

Bruce has given presentations on climate and health to diverse audiences including the American Meteorological Society, Harvard Medical School and Massachusetts General Hospital, Genentech, England’s Royal College of Obstetrics and Gynecology, the California State Senate and members of the U.S. House of Representatives. He is the lead author of the first large-scale review of birth impacts and climate change, published in JAMA in June 2020, and he co-hosts “Green Docs,” a podcast at the intersection of women's health, pregnancy outcomes and our environment.

Plenary Three:
Aiming Higher (Wednesday 1 November, 8.00-10.10)

Concurrent Nineteen:
Environment (Wednesday 1 November, 10.30-12.10)

Read more about what we’re doing with Sustainability with the ASM here:
Chantelle Otten

Chantelle Otten is a Melbourne based Psycho-Sexologist who is passionate about empowering people to feel great about their sexual health, self-esteem, communication and education.

A Melbourne local, Chantelle comes from a Dutch background. Having spent time living, studying and working in Holland, Chantelle has grown up with the European mindset that talking about sex, pleasure and relationships does not have to be shameful or taboo. With numerous awards, accolades and published medical journal articles, Chantelle is not only an internationally acclaimed psycho-sexologist, but also a caring and empowering sex educator.

With a background in scientific research, sexual medicine, and counselling, she believes that sexuality and self-esteem are an integral part of life, which everyone is entitled to.

Concurrent Twenty Two:
Sexual Health and Pelvic Pain
(Wednesday 1 November, 13.00-14.40)

Joshua Vogel

Joshua Vogel is a perinatal epidemiologist whose research focuses on improving maternal and perinatal health outcomes for women living in resource-constrained settings.

Joshua is a Senior Principal Research Fellow at the Burnet Institute in Melbourne, Australia, where he co-leads the Global Women’s and Newborn’s Health Group.

Joshua has been an investigator on clinical trials and epidemiological research across more than 40 low- and middle-income countries. He has also led development of several WHO guidelines in maternal and perinatal health.

Concurrent Seven:
Global Health
(Monday 30 October, 15.20-16.40)
Featured Speakers

Rabia Siddique

Rabia is an international humanitarian lawyer, retired British Army senior officer, former war crimes and terrorism prosecutor and hostage survivor.

Having survived a hostage crisis in Iraq in 2005 Rabia sued the British Government for discrimination when both the military and government tried to cover up her involvement in the incident, which saw her leading hostage negotiations for the release of two British Special Forces illegally kidnapped and detained by Iraqi based terrorists.

Rabia was diagnosed with PTSD and after her recovery she held both the British Army and Government to account for their systematic discrimination of women and ethnic minorities. Her landmark case made international news and saw the floodgates open for many similar cases.

Rabia is now a multi award winning story teller, inspirational speaker, leadership consultant, media commentator and human rights advocate. Peace and the sustainability of our planet is what drives her.

See Rabia in:

Plenary One:
Conflict and Justice
(Monday 30 October, 13.20-15.00)

Rhea Liang

Rhea Liang is a General and Breast Surgeon on the Gold Coast, surgical educator, diversity in surgery advocate and Surgical Lead at Bond University. She is the immediate past Chair of the RACS Operate with Respect education committee.

See Rhea in:

Plenary One:
Conflict and Justice (Monday 30 October, 13.20-15.00)

Maternal Fetal Medicine (Monday 30 October, 13.20-15.00)
Concurrent Fourteen:
Menopause (Tuesday 31 October, 13.20-15.00)
Plenary Three:
Aiming Higher (Wednesday 1 November, 08.00-10.10)
Memorial Orators

Emma Allanson
Ella Macknight Memorial Lecturer

Emma Allanson is a consultant gynaecological oncologist with a full-time public appointment at King Edward Memorial Hospital in Perth, Western Australia, and an academic appointment at the University of Western Australia.

Emma has a master’s in public health and a PhD in global women’s health. In addition to having lived and worked in South Africa in 2014, Emma worked as a consultant in 2015 in Geneva for WHO in the Department of Reproductive Health and Research (RHR) while doing her PhD and has undertaken a research fellowship in the global prevention of cervical cancer with Dr Kathleen Schmeler at MD Anderson Cancer Centre (Houston, Texas) in 2020, and an editorial fellowship with the International Journal of Gynaecological Cancer.

Emma’s current research activity includes work with colleagues in Vanuatu on cervical cancer screening and colleagues across Africa and the USA assessing available cervical cancer treatment in Africa.

See Emma’s oration:

Plenary One:
Conflict and Justice (Monday 30 October, 13.20-15.00)

Jan Dickinson
Ian McDonald Memorial Orator and Norman Beischer Research Foundation Visiting Professor

Jan Dickinson is Professor of Maternal Fetal Medicine at The University of Western Australia and a RANZCOG certified maternal fetal medicine subspecialist.

She received a RANZCOG Distinguished Service Medal in 2016 and was made a Member of the Order of Australia in the General Division in 2021.

Jan is the Head of the Maternal Fetal Medicine Service at King Edward Memorial Hospital in Perth and has established clinical and research interests in complex obstetrics and obstetric ultrasound, having published 200 peer-reviewed manuscripts.

Jan is a full-time university clinical academic, offering her the ideal situation to be involved in clinical research and its subsequent translation into practical medical care.

Jan is the Norman Beischer Research Foundation Visiting Professor for 2023.

See Jan’s oration:

Plenary Three:
Aiming Higher (Wednesday 1 November, 08.00-10.10)
THROUGH THE STAGES OF PREGNANCY WITH
UTROGESTAN (MICRONISED PROGESTERONE).†

TGA Approved For Treatment Of Threatened Miscarriage††

*In women with ≥3 previous miscarriages, or women with <3 miscarriages who have a reduced chance of future pregnancy.†
*Benefit of treatment was greatest in women with ≥3 previous miscarriages.

YOU ONLY NEED TO TREAT 8 WOMEN WITH UTROGESTAN FOR 1 ADDITIONAL LIVE BIRTH†††

*vs placebo in women with vaginal bleeding and ≥3 previous miscarriages†

38% REDUCED RISK OF PRETERM BIRTH†††-4

*Vaginal progesterone significantly reduced the risk of moderate preterm birth (<33 weeks) vs placebo (HR 0.62; p=0.0006).†††

PBS Listed For Prevention Of Preterm Birth†

*In women with singleton pregnancy who have a short cervix (midtrimester sonographic cervix ≤25 mm) and/or a history of spontaneous preterm birth.†

In a systematic review and meta-analysis of women with a singleton pregnancy and a midtrimester cervical length ≤25 mm. Vaginal progesterone preparations included Utrogestan micronised progesterone capsules,†‡ Cimino micronised progesterone gel,†‡ and a compounded progesterone suppository.†

PBS Information: Authority required (STREAMLINED) for Assisted Reproductive Technology and for the prevention of Preterm Birth. Refer to PBS Schedule for full authority. This product is not listed on the PBS for treatment of Threatened Miscarriage.

Please review Product Information before prescribing.

Reference: 1. Utrogestan® (micronised progesterone) Product Information, updated 22 February 2022. J. Romero et al. Am J Obstet Gynecol 2018;218(2):161-80. 3. Norman J et al. Lancet 2016;387:2106-16. 4. Fonseca EB A et al. Eng J Med 2007;357:462-9. 5. O'Brien PM et al. Ultrasound Obstet Gynecol 2007;30:587-96. 6. Hassan SS et al. Ultrasound Obstet Gynecol 2011;38:18-31. 7. Cottenet E et al. Arch Gynecol Obstet 2011;283:423-9. Ustrogestan 200 (vaginal use – micronised progesterone) Indication: luteal phase support during assisted reproduction; treatment of threatened miscarriage in women with a history of ≥3 previous miscarriages; prevention of preterm birth in women with singleton pregnancy who have a short cervix (midtrimester sonographic cervix ≤25 mm) and/or a history of spontaneous preterm birth. Dosage and Use: during luteal phase support in controlled ovarian cycles 600 mg/day as 3 divided doses from day of embryo transfer until 7th week of pregnancy and not later than the 12th week. For treatment of threatened miscarriage, usual dose is 400 mg twice a day (morning and night). Treatment should be initiated at the first sign of vaginal bleeding during the first trimester of pregnancy and should continue at least the 16th week of gestation. For prevention of preterm birth, usual dose is 200 mg/day, recommended at bedtime. Treatment can be initiated during the 2nd trimester (16-24 gestational weeks) and is to be continued to the end of the 36th week of gestation or until delivery. Each capsule of Ustrogestan must be inserted deep into the vagina. The average dosage is 200 to 800 mg of progesterone per day administered vaginally. This may be increased, depending on the patient’s response. Contraindications: known allergy/hypersensitivity to progesterone/exceptants; severe hepatic dysfunction, undiagnosed vaginal bleeding, known missed abortion/ectopic pregnancy; mammary/jerital tract carcinoma, thromboembolic disorders, thrombopileiasis, cerebral haemorrhage, porphyria. Special Warnings and Precautions: should only be used by vaginal route for the recommended timeframes for each indicated use (pregnancy CaN), cyclical omen damage/ovulatory cholestasis exceptionally reported during 2nd and 3rd trimesters of pregnancy, not a contraceptive, uterine bleeding out of must be established before use; discontinue use upon diagnosis of missed abortion; use caution in conditions affected by fluid retention and history of depression, diabetes, hepatic dysfunction, migraine, venous thromboembolism, photosensitivity and hypersensitivity to soy lecithin, not to be used during lactation; may effect laboratory test results: the evidence that Ustrogestan reduces the risk of preterm birth in women with a short cervix with/without pregnancy and/or a history of spontaneous preterm birth is limited. Interactions: caution with P450 enzyme inducers and inhibitors; bioavailability may be reduced by smoking and increased by alcohol abuse. Very Common and Common Adverse Effects: none noted with vaginal administration in clinical trials.

**Beyond Contraception**

**First line treatment for HMB**

*Australian Heavy Menstrual Bleeding Clinical Care Standard recommends Mirena® as the most effective medical treatment for managing heavy menstrual bleeding*

**100% effective at preventing endometrial hyperplasia**

*when used alongside estrogen replacement therapy in clinical studies with observation periods varying from one up to five years*

---

**PBS Information:** Mirena: Restricted Benefit. Contraception, idiopathic menorrhagia where oral therapies are ineffective or contraindicated.

Bitte review the full Product Information before prescribing that can be accessed via QR code.

**Minimum Product Information - Mirena, levonorgestrel 52 mg, intrauterine drug delivery system. INDICATIONS:** Contraception, treatment of idiopathic menorrhagia and prevention of endometrial hyperplasia during estrogen replacement therapy. **CONTRAINDICATIONS:** Known/suspected pregnancy; current or recurrent pelvic inflammatory disease; lower genital tract infection; postpartum endometritis; infected abortion during the past three months; cervical neoplasms; cervical dysplasia; uterine or cervical malignancy; confirmed or suspected hormone dependent tumours including breast cancer; diagnosed abnormal uterine bleeding, congenital or acquired uterine anomaly including 'fendible' if they distort the uterine cavity; conditions associated with increased infection susceptibility; acute liver disease; tumour, hypersensitivity to the active substance or to any of the excipients. **PRECAUTIONS:** Use with caution after specialist consultation or consider removal if following exist or arise for the first time: migraine; exceptionally severe headache; jaundice; marked increase in blood pressure; severe arterial disease; acute venous thromboembolism. **Use in pregnancy and lactation:** Young nulliparous women; post-menopausal women with advanced uterine atrophy; breast cancer; endometrial polyps or cancer; congenital or acquired uterine disease; diabetes; pelvic infections; expulsion; uterine perforation; ectopic pregnancy; sexually transmitted diseases; laser therapy; delayed follicular atresia. **INTERACTIONS WITH OTHER MEDICINES:** HIV/HCV protease inhibitors and nonnucleoside reverse transcriptase inhibitors; strong and moderate CYP3A4 inhibitors such as azole antifungals (e.g. fluconazole, itraconazole, ketoconazole, voriconazole), verapamil, macrolides (e.g. clarithromycin, erythromycin), diltiazem, grapefruit juice. **Please refer to PI for other interactions (influence not known).** **ADVERSE EFFECTS:** headache, abdominal/pelvic pain, changes in menstrual bleeding, vulvovaginitis; genital discharge; depressed mood; depression; nervousness; decreased libido; migraine; nausea; acne; hirsutism; back pain; upper genital tract infection; ovarian cyst; dysmenorrhea; breast tenderness/pain. **Storage:** Intrauterine contraceptive device expelled (partial and complete), weight increased. Please refer to PI for a complete list. **DOSEAGE AND ADMINISTRATION:** Initial release rate 20 micrograms levonorgestrel per 24 hours. Mirena is inserted into the uterine cavity and is effective for up to five years. It is recommended that Mirena should only be inserted by physicians or health care professionals who are experienced in IUD insertions and have undergone training on the Mirena insertion procedure. Refer to PI and Insertion Instructions leaflet for instructions on insertion and removal. **DATE OF PREPARATION:** Based on PI dated 20 September 2021. Referenced: 1. Mirena® Product Information. Revised September 2021. 2. Australian Commission on Safety and Quality in Healthcare. Heavy Menstrual Bleeding Clinical Care Standard, October 2017. Available at https://www.safetyandquality.gov.au/our-work/clinical-care-standards/heavy-menstrual-bleeding. Accessed May 2023.

### Continuing Professional Development

#### Maximising Hours

Attendance to the RANZCOG Annual Scientific Meeting 2023 is approved for RANZCOG CPD. Eligible Fellows of RANZCOG can claim CPD hours for attendance within the Educational Activities Domain. For RANZCOG Fellows, hours of attendance will be uploaded on your behalf. A certificate of attendance will be issued to all other participants, so that they may self-claim CPD with their respective Colleges.

- **Full Attendance (Meeting Only):** 18.5 hours
- **Monday 30 October 2023:** 6.5 hours
- **Tuesday 31 October 2023:** 6.5 hours
- **Wednesday 1 November 2023:** 5.5 hours

#### Rural Procedural Grants Program (RCPG)

The Rural Procedural Grants Program (RCPG) provides financial assistance to GPs who provide procedural and/or emergency medicine services in unsupervised settings in rural and remote areas. This government funding supports GPs with access to relevant educational activities to maintain or update their procedural and/or emergency medicine skills.

To apply for a Rural Obstetrics Grant, you must be registered in the program prior to attending an activity, if you wish to claim.

- **RACGP Affiliated:** please visit the Rural Procedural Grants Program webpage to register and see if you are eligible.
- **ACRRM Affiliated:** please visit the Rural Procedural Grants Program webpage to register and see if you are eligible.
The following Pre-Meeting Workshops are scheduled for Saturday 28 and Sunday 29 October 2023. Workshop numbers are limited, so early registration is encouraged. Each workshop is subject to sufficient attendance and may be cancelled if minimum numbers are not reached; in this event, fees paid will be fully refunded. All prices below are including GST.

**Pre-Meeting Workshops and Satellite Meetings**

**Challenges of Surgical Training Roundtable**

*Saturday 28 October 2023*

*08.15-13.00 Half Day*

**Facilitators:** Yee Leung, Katrina Calvert, Jenni Pontre, Rhea Liang, John Regan  
**Venue:** Perth Convention and Exhibition Centre  
**Cost:** $440  
**Includes:** Morning Tea  
**CPD:** 4 hours (2 hours Outcome Management, 2 hours Performance Review)

Contemporary surgical training programs are challenged by many external factors that result in diminished opportunities for trainees to access surgical teaching in the operating room. Colleges need to consider and implement strategies to address this issue to ensure surgical training is optimised for current and future trainees and fellows. Surgical training, teaching and learning theories and practice will be presented and discussed. The purpose of the round table is to bring together subject matter experts to present the latest advances in surgical training/education and debate the merits of various programs/initiatives to stimulate ideas in this important area of the RANZCOG curriculum.

**Diplomates Day One (Gynaecology)**

*Saturday 28 October 2023*

*08.15-16.30 Full Day*

**Facilitators:** Chieh Cheng, RANZCOG Diplomates Committee  
**Venue:** Perth Convention and Exhibition Centre  
**Cost:** $725  
**Includes:** Morning Tea, Lunch, Afternoon Tea  
**CPD:** RACGP and ACRRM Accreditation underway.

The Diplomates Day program has been prepared by the RANZCOG Diplomates Committee and each day of the two-day program is targeted to meet the needs of RANZCOG Diplomates. As the program is limited to 60 participants, preference will be given to RANZCOG Diplomates, with a waiting list to apply for other registrants. The Gynaecology Day of this program will offer important updates to clinical practice as well as a number of practical stations.

**Cultural Safety Workshop**

*Saturday 28 October 2023*

*08.30-17.00 Full Day*

**Facilitators:** AIDA  
**Venue:** Perth Convention and Exhibition Centre  
**Cost:** $150  
**Includes:** Morning Tea  
**CPD:** 7 hours (Educational Activity), 0.5 hours (Performance Review)

AIDA’s Cultural Safety Training, Aboriginal and Torres Strait Islander Health in Clinical Practice (ATSIHiCP), is a clinically focused training program that equips Fellows and Trainees with the tools needed to integrate Aboriginal and Torres Strait Islander holistic health and cultural safety into everyday clinical practice.

Developed and delivered by Aboriginal and Torres Strait Islander doctors, the program offers participants an opportunity to better understand Indigenous health perspectives by investigating their own perceptions, asking hard questions, and beginning critical self-reflection in a culturally safe space.

**UGSA Satellite Meeting**

*Saturday 28 October 2023*

*08.30-12.30 Half Day*

**Facilitators:** UGSA  
**Venue:** Perth Convention and Exhibition Centre  
**Cost:** $440 (UGSA Members), $475 (non-UGSA Members)  
**Includes:** Morning Tea  
**CPD:** 3.5 hours (Educational Activity)

This workshop will involve an update on Urogynaecology management of common presentations, including post op care and management of obstetric and gynaecological complications, including:

- Initial assessment and management of common urogynaecological presentations
- Identify the treatment options for patients presenting with stress incontinence
- Identify and manage OASIS injuries and provide appropriate follow up care
- Outline management of urogynaecological complications associated with placenta accreta spectrum
- Manage post operative bladder complications
- Identify and provide initial management of urinary tract injury following obstetric and gynaecological surgery
Free elearning courses for health professionals

CARE FOR WOMEN AND BABIES?

Current Obstetrics and Maternity courses available include:
• Obstetric Haematology
• Obstetric Blood Management
• Postpartum Haemorrhage
• RhD Immunoglobulin

Other courses you might find useful:
• IDA Maternity
• IDA Heavy Menstrual Bleeding
• Neonatal Preterm
• Fetal Neonatal Alloimmune Thrombocytopenia
• Neonatal Major Haemorrhage
• Viscoelastic Haemostatic Testing
• Clinical Transfusion Practice (CTP) and CTP Refresher

Course content is based on national Patient Blood Management Guidelines, evidence-based material and/or expert consensus opinion, and have been developed in collaboration with leading experts in Australia.

Pre-Meeting Workshops and Satellite Meetings

Operative Hysteroscopy Workshop
Saturday 28 October 2023
08.30-12.30 Half Day
Facilitators: Bernie McElhinney
Venue: King Edward Hospital
Cost: $605
Includes: Morning Tea
CPD: 4 hours (Educational Activity)
Overview of outpatient hysteroscopy including setup, equipment, distension medium, patient selection, analgesia. Techniques to overcome problems encountered in the outpatient setting such as the stenosed cervix, avoiding and managing complications, Patient satisfaction and feedback, audit topics and research.
This workshop will include Didactic lectures and practical learning with simulation models for endometrial ablation, intrauterine tissue, extraction and Bezzini hysteroscopic models.

Paediatric and Adolescent Gynaecology Workshop
Sunday 29 October 2023
08.45-16.30 Full Day
Facilitators: Jenny Beale
Venue: Perth Convention and Exhibition Centre
Cost: $725
Includes: Morning Tea, Lunch, Afternoon Tea
CPD: 6 hours (Educational Activity)
This workshop will cover practical management of common PAG conditions, particularly for those practitioners encountering these patients before referring onto a PAG specialist for ongoing care and help delegates become confident in managing common PAG conditions and recognise when to refer onto a PAG specialist for ongoing care. The aims of this workshop include:

• Learn how to manage common PAG conditions, such as heavy menstrual bleeding.
• Identify when to refer to a PAG specialist for more complex conditions.
• Identify causes for amenorrhoea and demonstrate knowledge of investigations required.
• Describe different causes of pelvic pain in adolescents and outline management strategies.

Laparoscopy Workshop
Saturday 28 October 2023
13.00-18.00 Half Day
Facilitators: Bernie McElhinney
Venue: King Edward Hospital
Cost: $605
Includes: Afternoon Tea
CPD: 3.5 hours (Educational Activity)
Join us for a half day of didactic lectures, case studies, simulation and practical skills in laparoscopic surgery. At the end of this course, delegates will be able to:

• Select appropriate patients for laparoscopic surgery
• Perform the procedure safely and competently with a good knowledge of different entry techniques (Veress, Palmer, Hassan)
• Recognise the complex patient who is beyond your scope of practice
• Avoiding complications and how to handle them when they occur
• Competently manage the complex patients with raised BMI, co-morbidities or significant past surgical history
• Incorporate electrosurgical devices into their normal practice

PVOGS Gynaecological Laparoscopic Surgery Skills Workshop
Sunday 29 October 2023
09.00-12.00 Half Day
Facilitators: Ruth McCuaig, Bernadette McElhinney, Yogender Yadav
Venue: Perth Convention and Exhibition Centre
Cost: Medical Student $65, JMO $95 (plus booking fees)
Includes: Morning Tea
CPD: 3 hours (Educational Activity)
This face-to-face PVOGS ANZ workshop will combine both an engaging presentation and a more hands on skills component. The session will commence with a 45-minute presentation by one of our advanced laparoscopic surgeons on a general introduction of laparoscopic surgery to participants. The
session will then continue to the more practical component. This will be split into ‘Basic Laparoscopic Skills’ followed by ‘More Advanced Laparoscopic Skills’ with a morning tea break in between. The session will develop participants’ laparoscopic gynaecology skills through a series of interactive exercises. Participants will be supported in each step of the practical component by our knowledgeable and experienced demonstrators. There will be a focus on ensuring sufficient individualised feedback is given to each delegate throughout the morning – with adequate facilitators to delegate ratio. This is a rare opportunity for junior doctors and medical students to be immersed in practical skills under the guidance of professional colleagues.

Please note that registration for this workshop is run outside of the ASM Registration process. More information on pricing and registration can be found here:

[Diplomates Day Two (Obstetrics)]

Saturday 28 October 2023
08.15-16.30 Full Day

Facilitators: Chieh Cheng, RANZCOG Diplomates Committee
Venue: Perth Convention and Exhibition Centre
Cost: $725
Includes: Morning Tea, Lunch, Afternoon Tea

CPD: RACGP and ACRRM Accreditation underway.

The Diplomates Day program has been prepared by the RANZCOG Diplomates Committee and each day of the two-day program is targeted to meet the needs of RANZCOG Diplomates. As the program is limited to 60 participants, preference will be given to RANZCOG Diplomates, with a waiting list to apply for other registrants. The Obstetrics Day of this program will offer important updates to clinical practice as well as a number of practical stations, including an OASI skills station.

[ASCCP Workshop]

Saturday 28 October 2023
08.15-16.30 Full Day

Facilitators: Mary Sparksman
Venue: Perth Convention and Exhibition Centre
Cost: $725
Includes: Morning Tea, Lunch, Afternoon Tea

CPD: 5 Hours (educational Domain)

In this interactive workshop, delegates will learn and refresh their techniques in Colposcopy to implement the appropriate techniques, documentation and patient care in managing cervical disease. Delegates will also learn how to use the role of audit and Q&A in their practice, and discuss the screening and colposcopy treatment in special circumstances such as pregnancy and immune-compromised women. Delegates will also have the chance to learn and discuss implementing HPV screening, the impact of excisional technique and the consequences of treatment, and how to utilise and implement appropriate technology into their practice.
Diplomates Cocktail Function

**Saturday 28 October 2023**
17.15 -19.00

**Venue:** Perth Convention and Exhibtion Centre
An included function for all registered Diplomates, this reception will be held at the Perth Convention and Exhibtion Centre on Saturday 28 October, immediately following the conclusion of Diplomates Day One.

This function is a prime networking opportunity, offering the chance to meet with colleagues, the RANZCOG President, members of the RANZCOG Diplomates Committee, the RANZCOG Board and College Council. A highlight of the reception will be the presentation of newly certified Diplomates.

**Includes:** Drinks and canapés
**Cost:** Included for Diplomates Day One and Day Two attendees
**Tickets:** Additional tickets are available for purchase via the online registration portal for RANZCOG Diplomates
**Dress Code:** Smart casual

New Fellows and Awards Presentation Ceremony

**Sunday 29 October 2023**
18.00-20.30

**Venue:** Perth Convention and Exhibtion Centre
The New Fellows and Awards Presentation Ceremony and Reception will be held at Perth Convention and Exhibition Centre on Sunday 29 October 2023. Newly elevated Fellows and recently certified subspecialists will be joined by family and friends to celebrate this significant milestone in their career.

This function will also include presentation of medals for outstanding achievements in RANZCOG examinations, and the awarding of Honorary Fellowships and College Medals. A cocktail function will be held following the formal proceedings.

**Includes:** Drinks and canapés
**Cost:** $90 for adults, $30 for children (incl GST)
**Tickets:** this event is an invite only event and eligible delegates will be contacted prior to the ASM
**Dress Code:** Cocktail Dress/Lounge Suit
Social Functions

Welcome Reception

Monday 30 October 2023
17.15-19.00

Venue: Perth Convention and Exhibition Centre

An included function for all registered delegates, this reception will be held in the Sponsorship and Exhibition space at the Gold Coast Convention and Exhibition Centre on Monday 30 October 2023, immediately following the conclusion of the plenary session.

This function is a prime networking opportunity, offering the chance to meet with colleagues, exhibitors and speakers while enjoying drinks and canapés.

Includes: Drinks and canapés
Cost: Included for registered delegates
Dress Code: Smart casual

Annual Scientific Meeting Gala Dinner

Tuesday 31 October 2023
19.00-late

Venue: Perth Convention and Exhibition Centre

The social highlight of the meeting, the Gala Dinner will be held in Hackett Hall at the WA Museum. Given that the Gala Dinner coincides with Halloween, the Organising Committee recognised the significance of embracing the occasion by implementing a spine-chilling dress code for this highly anticipated social event.

There will also be a prize for best dressed so start planning your frightful outfit now! You’ve been warned.

Includes: 3 course dinner, drinks, bus transfers and general spookiness
Cost: $195 (incl GST)
Tickets: Tickets are available for purchase via the online registration portal
Dress Code: Cocktail Dress/Lounge Suit (Halloween/Spooky Costume will be well regarded)
To help build awareness of oncofertility, Roche has developed a short information clip designed for display in your waiting room/ website.

Talk to us about obtaining a copy of the video, which is available in 4 languages.

Wellbeing Program

A Wellbeing Program is in the process of being developed with the Organising Committee and will run on the mornings of Monday 30 and Tuesday 31 of October before the start of the Scientific Program. Please keep an eye on the RANZCOG ASM website for further details.

RANZCOG Creche

A creche will be available for all delegates during the main days of the Scientific Program (Monday 30 October - Wednesday 1 November 2023).

You can indicate during the registration process should you wish to utilise this service and you will be contacted directly. Please visit the ASM Website for opening hours and pricing.

The cost of the creche is subsidised by RANZCOG.

Sponsors and Exhibitors

RANZCOG would like to extend our thanks and gratitude to all our involved Sponsors and Exhibitors; without them our ASM is not possible. You can read more about our participating Sponsors and Exhibitors here:
ASM Venue and Host City

Venue
The RANZCOG Annual Scientific Meeting 2023 will be held at the Perth Convention and Exhibition Centre (PCEC). PCEC is perfectly located in the heart of Perth, walking distance from hotels, restaurants and transport. 21 Mounts Bay Road, Borloo (Perth), Western Australia, 6000.

About Borloo (Perth)
Perth edges the Indian Ocean - with 19 pale, sandy beaches - framed around enormous Kings Park / Kaarta Koomba and carved by the s-bends of the Swan River / Derbarl Yerrigan. Western Australia’s capital is a dynamic city that balances its natural beauty with a lively after-dark scene.
General Information

How to book accommodation
You will need to book your accommodation separate to the registration portal for the ASM. Please refer to the ASM website to find out further details with regards to accommodation options and any relevant discount codes.

Change of Booking and Cancellation
All reservations are subject to the individual hotel cancellation policies as stated in the hotel information on their website. RANZCOG does not take any responsibility for booking of accommodation or cancellation thereof.

Credit Card Guarantee
Credit card details may be required as a guarantee for your accommodation booking; you will need to provide these when booking with your chosen hotel.

Payment of Accommodation
The accommodation account and any incidental charges must be paid in full, directly to the hotel, on departure.

On Demand Access for all Delegates
Missed a presentation? All recorded conference materials will appear on the conference platform for up to 90 days after the conference so you will have time to go back and watch anything you may have missed.

Trade Exhibition
The trade exhibition will be an integral component of the ASM. This is a great opportunity for delegates to meet with trade representatives from the leading companies that provide products and services to the fields of obstetrics and gynaecology and find out about the latest developments and trends designed to assist practitioners.

To acknowledge the importance of the exhibition, the meeting program has been structured to ensure delegates have ample time to visit the trade area. Daily morning, afternoon teas (if applicable) and lunches will be held in this area.

Dress Code
Please note that the dress standard for the meeting will be smart casual.

Insurance
Delegates are strongly advised to secure appropriate travel and health insurance. Delegate registration fees do not provide any such insurance coverage. The Organising Committee, RANZCOG and the Meeting Secretariat accept no responsibility for any loss in this regard.

Liability Disclaimer
In case of industrial disruption, the Organising Committee, RANZCOG and the Meeting Secretariat accept no responsibility for loss of monies incurred by delegates.

Privacy Statement
Information provided on the registration form will be used to administer the Meeting including accommodation, catering, transport, sponsorship and exhibition. Data obtained will remain the property of RANZCOG and The Meeting Secretariat.

Visa Information (International Only)
With the exception of New Zealand citizens travelling on New Zealand passports, all foreign nationals must obtain a visa/ETA before travelling to Australia. New Zealand citizens are issued with a visa on arrival in Australia. For information about visa applications to enter Australia, please visit: www.homeaffairs.gov.au/Trav. Please note that visa processing times may vary. Delegates are encouraged to apply for the appropriate visa six to eight weeks before departure to Australia.

Importantly, it is the policy of the Meeting Secretariat not to supply an 'invitation letter' to unpaid or unregistered delegates as it is not required and does not assist in the visa-application process. Upon payment of registration fees, each delegate receives a confirmation letter of acceptance of registration and receipt of payment.

Contact

No woman should die while giving birth, but across the world over 300,000 women die every year from complications during childbirth. Many of these deaths are preventable.¹

At Ferring, we believe that every woman should have access to quality care and treatment during pregnancy and childbirth, no matter where she lives.
