## **UGSA Build Your Own Pelvis: Hands-on Clay Pelvic Anatomy Workshop**

RANZCOG ASM Pre-Conference Workshop  
Sunday 13<sup>th</sup> October

Te Huinga Conference Centre  
Rangimarie 1 Room  
0830 - 1200

**Faculty:** Dr Oliver Daly, Dr Lucy Bates, Dr Fiona Bach, Dr Bernadette Brown, & Dr Tim Dawson

### **Overview**

This practical workshop will provide a theoretical and practical approach to learning pelvic anatomy, provides an overview of pelvic structures and supports with clinical applications. Pairs of participants will then work together to build a pelvis using clay and other materials starting with the bony pelvis. Participants will identify bony landmarks of the pelvis and upper femur, the obstetric dimensions and clinical correlates. They will identify the attachments and build the ligamentous structures, muscle groups, pelvic organs and nerves that comprise the pelvis resulting in a complete pelvis enabling visualisation from an abdominal and perineal perspective.

### **Schedule**

0830 - 0900	Registration
0900 - 0930	Introduction to pelvic anatomy and the impact of pregnancy and birth <b>Oliver Daly</b>
0930 - 1030	Step-by-step construction of pelvis with discussion of clinical and surgical applications <b>Oliver Daly, Lucy Bates, Fiona Bach, Bernadette Brown, &amp; Tim Dawson</b>
1030 - 1100	Morning Tea Break
1100 - 1130	Construction of Pelvis Continued
1130 - 1200	Wrap Up
